What is an Older Person Safe Driving Program ?

The Nova Scotia Government Retired Employees Association (NSGREA) offers a safe driving program for seniors all across Nova Scotia.

The program was designed by retired Motor Vehicle Department employees with seniors in mind.

The program is approved by the Nova Scotia Government

and consists of six hours of classroom instruction over

a two day period.

Classroom materials are supplied as well as light refreshments.

Contact us if you or your group would like to participate in the program.

The Price is Right !

The Program is sponsored by the Nova Scotia Government and is FREE to those who are eligible.

Who is eligible ?

This program is offered FREE to Seniors who hold a valid Nova Scotia Drivers License and are 65 years of age or older.

REFRESHMENTS ARE INCLUDED

The Opportunity Exists

The opportunity to participate is in your hands, the same hands that hold the steering wheel of your vehicle. This program is to refresh your driving skills and puts in focus many of the distractions facing senior drivers today.

The choice is yours and the opportunity exists.

What is Stopping you ?

The problem is getting started. The advantages in becoming involved in the Older Driver Safe Driving Program are having a qualified person answering your questions as well as being knowledgeable on issues relating to driving in Nova Scotia.

One of the benefits could be understanding such an item as, "Where do I stop for a stop sign ?"

Other problems could centre around communications. "I know I'll be turning at the next driveway - when do I communicate my intentions to other drivers ?"

There are different answers to these questions, but only one correct one. Do you know what it is ?
